

# KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## MGI Euro Cash Fund

MGI Euro Cash Fund B4-0.1300-EUR (IE00BF12W584) (the "Fund")

a sub-fund of MGI Funds plc

This Fund is managed by Mercer Global Investments Management Limited

### OBJECTIVE AND INVESTMENT POLICY

The investment objective of the Fund is to invest in Euro denominated cash holdings consistent with the preservation of capital and provision of liquidity.

The Fund will invest in a global range of cash deposits and short-dated term money market securities which may include short term commercial paper, bankers' acceptances, government securities and certificates of deposit, and securities issued by governments, government agencies and corporate issuers. At least 80% of the Fund's assets will consist of money market securities or deposits which, at the date of acquisition, have a maturity of not greater than one year. The Fund will invest only in high quality money market instruments, as determined by the Investment Manager (or its delegate).

The Fund will invest in money market instruments which have a residual maturity of up to and including 397 days and may also invest in money market instruments with a residual maturity until the legal redemption date of 2 years or less, provided that the time remaining until the next interest rate reset date is 397 days or less. For that purpose, floating rate money market instruments and fixed rate money market instruments hedged by a swap arrangement shall be reset to a money market rate or index.

The Fund will maintain a weighted average maturity of 6 months or less and a weighted average life of 12 months or less. The calculation of both will take into account the impact of deposits and any repurchase or reverse repurchase agreements used by the Fund.

Weighted average maturity is a measure of the average length of time to maturity of all of the underlying instruments weighted to reflect the relative holdings in each instrument, assuming that the maturity of a floating or variable rate instrument is the time remaining until the next interest rate reset date rather than the time remaining before the principal value of the instrument must be repaid, while weighted average life is the weighted average of the remaining life (maturity) of each instrument held, meaning the

time until the principal is repaid in full. The Fund is actively managed and will seek to outperform cash gross of the fees of the Manager, the Investment Manager and the Distributor, but net of all other fees and expenses of the Fund, on average per annum over the medium to long term. The Fund also uses 50% ICE BofAML Euro LIBID 1 month and 50% ICE BofAML Euro LIBOR 1 month indices for performance comparison purposes only. The Fund is not managed in reference to a benchmark nor is it in any way constrained by any benchmark and there is no guarantee the Fund will outperform cash.

At least 7.5% of the Fund's assets will be daily maturing and at least 15% of the Fund's assets will be weekly maturing. No more than 5% of the Net Asset Value of the Fund will be invested in the debt securities including, without limitation, commercial paper, promissory notes, floating rate notes and certificates of deposit, of companies, other than banks, with a credit rating of less than A1/P1.

The Fund may not invest more than 10% of its assets in aggregate in other collective investment schemes which must also be money market funds.

The Fund may use financial derivative instruments (instruments for which the price is dependent on one or more underlying asset, 'FDI') for the purposes of hedging. The Fund is not intended to be leveraged. The Fund may not invest in FDI that would result in losses exceeding the Net Asset Value of the Fund.

The Fund will not distribute dividends. Income and capital gains from the Fund are reinvested.

You can buy and sell shares in the Fund on demand each day which is a bank business day in Ireland or the United Kingdom.

Recommendation: Investment in the Fund should be viewed as short to medium term.

### RISK AND REWARD PROFILE

Lower risk

Potentially lower reward

Higher risk

Potentially higher reward

The risk and reward indicator value is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile.

The risk category shown is not guaranteed and may change over time.

The lowest category, 1, does not mean risk free.

The value of investments and income from them can go down as well as up and you may not get back the full amount you invested.

The Fund is rated 1 due to the nature of its investments which include the risks listed below:

**Liquidity risk:** Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

**Operational risk:** All funds are subject to the risk that something could go wrong in the day-to-day running of an organisation.

**Sector specific:** Investment risk is concentrated in specific sectors, countries, currencies or companies. This means that the Fund is more sensitive to any localised economic, market, political or regulatory events.

For more information on risks please refer to the "Special Considerations and Risk Factors" section in the prospectus and in the supplement for the Fund.

## CHARGES

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	none
Exit charge	none

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

### Charges taken from the fund over a year

Ongoing charge	0.15%
----------------	-------

### Charges taken from the fund under certain specific conditions

Performance fee	none
-----------------	------

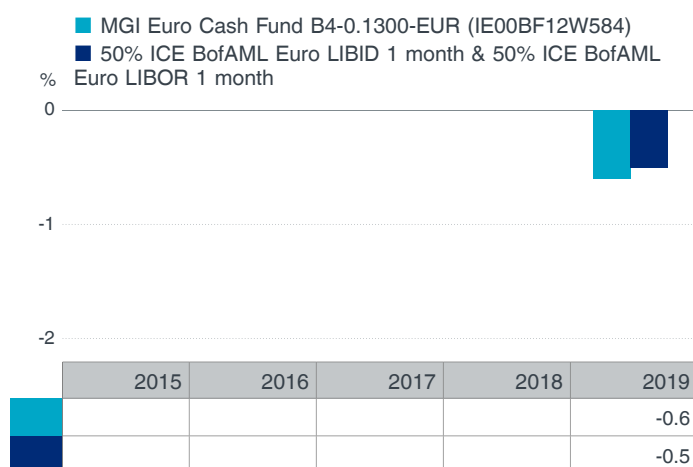

The entry and exit charges shown are maximum figures. In some cases, you might pay less – you can find this out from your investment advisor or distributor.

The ongoing charges figure is based on expenses for the twelve month period ending 31st December 2019. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.
- Performance fees

For more information about charges and information about other share classes, please refer to the prospectus.

## PAST PERFORMANCE

Past performance is not a guide to future results.

The past performance shown here takes account of all charges and costs. The entry/exit charges are excluded from the calculation of past performance.

The Fund was launched on 02/10/2018.

Past performance has been calculated in EUR and is expressed as a percentage change in the Fund's net asset value at each year end.
