Rebalancing Instructions within certain Investment Strategies

I note that in some of the investment strategies available in order to maintain the asset allocation discipline of my chosen strategy after I have invested Conexim will, from time to time, need to rebalance the holdings in my strategy to the percentage allocations at the date of my original investment ("**Original Asset Allocation**"). I note that a rebalance will need to be effected on my behalf where the asset allocations in my strategy drift ("**Asset Allocation Drift**") by the amount specified in the Key Features Document relative to that investment strategy. This pre-authorized rebalance to the Original Asset Allocation will normally be effected by Conexim at 10am (Irish time) on the first business day following the occurrence of the Asset Allocation Drift (the "**Rebalance Date**") provided the Asset Allocation Drift has still occurred at that time.

Where Asset Allocation Drift has occurred in my strategy, I HEREBY INSTRUCT Conexim to effect, on the Rebalance Date, the number of sale and buy instructions of units in each of the funds in the strategy, based on the published net asset value of the funds on the Rebalance Date, as are required to restore each of the holdings in the strategy to my Original Asset Allocation.

I understand and acknowledge that I retain absolute discretion over all investment decisions and that I may by notice in writing to my financial advisor and/or Conexim rescind this/these standing rebalancing instruction(s).

I understand that the above pre-authorized rebalancing instruction(s) is/are designed to maintain the asset allocation discipline of my chosen strategy after I have invested. I understand that the Original Asset Allocation may change due to market movements and the above pre-authorized rebalancing instruction is intended to restore my investment to the Original Asset Allocation in order to keep my strategy consistent with my risk appetite as I have described it to my financial advisor.

Should I wish to change into a different strategy with different asset class allocations, this can be facilitated but will require a new instruction from me accepting the changes in the risk/return characteristics of the chosen strategy.

Where Conexim rebalance investments within a investment strategy we confirm that such rebalancing is based on the pre-authorized rebalancing instruction as detailed in the key features document, which the Company has received a copy of, and that such rebalancing does not imply that Conexim is making an assessment of suitability or appropriateness for the purposes of providing services to the Company and if any discretion is employed it is only to rebalance the strategy to remain consistent with the characteristics for each investment strategy as specified in the key features document.

6. Express consent to execute order outside of regulated market or multilateral trading facility
