Mercer Passive Global Equity Fund

Mercer Passive Global Equity Fund B21-0.1000-EUR (IE00BF12W709) (the "Fund")

a sub-fund of MGI Funds plc

This Fund is managed by Mercer Global Investments Management Limited

OBJECTIVE AND INVESTMENT POLICY

The investment objective of the Fund is to seek long-term growth of capital and income.

The Fund is an index tracking fund. It is passively managed and will seek to achieve its objective by investing predominantly in global equity and equity related securities that as far as possible and practicable reflect the component global equity securities of the MSCI World Index (Net Dividends Reinvested) Index, unhedged as measured in USD (the "Index"). The Index is a broad global equity benchmark that represents large and mid-cap equity performance across a range of developed markets. The Fund may use optimisation techniques in order to achieve a similar return to the Index; this strategy seeks to build a representative portfolio that matches the risk and return characteristics of the Index without the expectation that the Fund will hold every underlying constituent of the Index. This approach may result in the Fund investing in only a relatively small number of Index constituents where such instruments provide similar performance.

Equity securities in which the Fund will invest will generally be listed on Recognised Markets across developed markets and will include, without limitation, common stocks, convertible bonds, and warrants.

The Sub-Fund may also invest in units/shares of equity-related collective investment schemes which fall within the categories specified by the Central Bank as permissible investments for

UCITS.

The Fund will invest at least 90% of its net assets in securities issued in markets which are listed as developed markets by a MSCI and / or constitute Recognised Markets. No more than 5% of the net assets of the Sub-Fund may be invested in aggregate in securities issued in markets other than those listed as developed markets by a global equity index provider such as, without limitation, MSCI or FTSE.

The Fund may also invest up to 10% of its assets in aggregate in other collective investment schemes.

Investment by the Fund in REITs listed on Recognised Markets will not exceed 10% of the Fund's Net Asset Value.

The Fund may only use financial derivative instruments for the purposes of hedging and efficient portfolio management.

FDI may enable the Fund to obtain market exposure in excess of the value of the Fund's assets. The Fund may not invest in FDI that would result in losses exceeding the Net Asset Value of the Fund.

The Fund will not distribute dividends. Income and capital gains from the Fund are reinvested.

You can buy and sell shares in the Fund on demand each day which is a bank business day in Ireland or the United Kingdom.

Recommendation: Investment in the Fund should be viewed as medium to long term.
