Fund objectives and investment policy

The Fund aims to provide capital growth and income of USD 3 month LIBOR +4% p.a. (or an alternative reference rate) before fees have been deducted * over rolling three year periods by investing in a diversified range of assets and markets worldwide. *For the target return after fees for each Share Class please visit the Schroder website: <https://www.schroders.com/en/lu/private-investor/investing-with-us/after-fees-performance-targets/>

The fund is actively managed and invests directly or indirectly (through investment funds and derivatives) in equities, bonds, commodities and currencies worldwide. The fund may invest in sub-investment grade bonds (being bonds with a credit rating below investment grade as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). The fund may invest up to 20% of its assets in asset-backed securities and mortgage-backed securities. The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently. The fund may take short positions. The fund may also hold substantial levels of cash (exceptionally this may represent 100% of the fund's assets). The fund may invest up to 10% of its assets in open-ended investment funds (including other Schroder funds). The fund may invest up to 10% of its assets in open-ended investment funds (including other Schroder funds).

Relevant risk as associated with this Fund are shown overleaf and should be carefully considered before making any investment.

Performance over 5 years (%)

Past Performance is not a guide to future performance and may not be repeated.

The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.

Source: Morningstar, bid to bid, net income reinvested, net of fees. The fund's performance should be assessed against its target benchmark, being to deliver USD 3 month LIBOR +4% (or an alternative reference rate) and compared against USD 3 month LIBOR (or an alternative reference rate). The investment manager invests on a discretionary basis and is not limited to investing in accordance with the composition of a benchmark. Some performance differences between the fund and the benchmark may arise because the fund performance is calculated at a different valuation point from the benchmark.

The Benchmark performance is shown in the base currency of the fund. To enable comparison between the performance of this Hedged share class and the Benchmark, and to show the effect of the currency hedge, the equivalent unhedged base currency share class performance is also shown.

The equivalent unhedged share class and benchmark will be blank if the inception date is different to the hedged share class inception date. Merrick Styles and Clement Young replaced Alastair Baker as Fund Manager for this fund on 01.05.2020.

Synthetic risk & reward indicator (SRRI)

LOWER RISK Potentially lower reward **HIGHER RISK** Potentially higher reward

The risk category was calculated using simulated historical performance data and may not be a reliable indicator of the fund's future risk profile. The fund's risk category is not guaranteed to remain fixed and may change over time. A fund in the lowest category does not mean a risk-free investment. A fund is in categories 1 to 3 where it can take lower risks in search of potentially lower rewards and its price may rise and fall accordingly. A fund is in categories 4 to 7 where it can take higher risks in search of potentially higher rewards and its price may rise and fall accordingly.

Risk considerations

Credit risk: A decline in the financial health of an issuer could cause the value of its bonds to fall or become worthless.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Currency risk: The fund may lose value as a result of movements in foreign exchange rates.

Derivatives risk - Efficient Portfolio Management and Investment Purposes: Derivatives may be used to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund. The fund may also materially invest in derivatives including using short selling and leverage techniques with the aim of making a return. When the value of an asset changes, the value of a derivative based on that asset may change to a much greater extent. This may result in greater losses than investing in the underlying asset.

Emerging Markets & Frontier risk: Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty, operational and liquidity risk than developed markets.

Counterparty risk: The fund may have contractual agreements with counterparties. If a counterparty is unable to fulfil their obligations, the sum that they owe to the fund may be lost in part or in whole.

Issuer risk: The fund is permitted to invest more than 35% of its scheme property in transferable securities and money market instruments issued or guaranteed by an EEA State / governments of the following countries: United States

Investments in other collective investment schemes: The fund will invest mainly in other collective investment schemes.

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

IBOR: The transition of the financial markets away from the use of interbank offered rates (IBORs) to alternative reference rates may impact the valuation of certain holdings and disrupt liquidity in certain instruments. This may impact the investment performance of the fund.

Currency risk/hedged share class: The hedging of the share class may not be fully effective and residual currency exposure may remain. The cost associated with hedging may impact performance and potential gains may be more limited than for unhedged share classes.

Risk statistics & financial ratios

	Fund	Target
Annual volatility (%) (3y)	6.5	0.2
Beta (3y)	-2.0	-
Sharpe ratio (3y)	-0.1	60.0

Target refers to the Benchmark listed in the Fund facts section and described under the Share class performance section on page 1. Source: Morningstar. The above ratios are based on bid to bid price based performance data of the unhedged equivalent share class.

Important information

This document does not constitute an offer to anyone, or a solicitation by anyone, to subscribe for shares of Schroder International Selection Fund (the "Company"). Nothing in this document should be construed as advice and is therefore not a recommendation to buy or sell shares.

Subscriptions for shares of the Company can only be made on the basis of its latest Key Investor Information Document and prospectus, together with the latest audited annual report (and subsequent unaudited semi-annual report, if published), copies of which can be obtained, free of charge, from Schroder Investment Management (Europe) S.A. The Company is a Luxembourg-registered UCITS recognised in the UK under Section 264 of the Financial Services and Markets Act 2000. There will be no right to cancel any agreement to purchase shares. If shares are purchased directly or through an overseas agent not authorised to carry out regulated activities in the UK, all or most of the protection provided by the UK regulatory system will not apply to investments in the Company and compensation will not be available under the UK Financial Services Compensation Scheme and the Financial Ombudsman Service. An investment in the Company entails risks, which are fully described in the prospectus. This document is issued by Schroder Investment Management (Europe) S.A., 5, rue Höhenhof, L-1736 Senningerberg, Luxembourg. Registered No. B 37.799.

Approved for issue in the UK by Schroder Investment Management Limited, 1, London Wall Place, London EC2Y 5AU. Authorised and regulated by the Financial Conduct Authority. Schroders has expressed its own views and opinions in this document and these may change.

Benchmark: The target benchmark has been selected because the target return of the fund is to deliver or exceed the return of that benchmark as stated in the investment objective. The comparator benchmark has been selected because the investment manager believes that the benchmark is a suitable comparison for performance purposes given the fund's investment objective and policy.
